SKILLS

AI / LLM: Agentic AI, AutoGen, LangChain, LangGraph, RAG, MAF, LLM Orchestration, Prompt Engineering, GenAI
Backend: Node.js, Python, NestJS, Next.js
Frontend: ReactJS, Angular, TypeScript, JavaScript
Cloud & DevOps: Kubernetes, Docker, CI/CD, Azure, AWS
Databases: SQL, MongoDB
Others: WebSockets, System Design

WORK EXPERIENCE

Fractal Analytics, Bangalore

Apr 2024 - Present

Senior AI Engineer

- Designed and productionized agentic AI systems integrating 10+ agents (image generation, reference image editing, search, reasoning, GPT-based workflows), reducing manual effort by 60% and improving output quality across user workflows.
- Led the end-to-end development and production deployment of Kalaido.ai, scaling to 50K+ MAU with robust backend architecture and optimized AI inference pipelines.
- Engineered and deployed key components of Vaidya.ai, improving system reliability and user experience.
- Collaborated with product and design teams to translate business requirements into AI-driven features, improving user adoption.
- Reduced API latency by ~40% and improved system reliability by optimizing Kubernetes deployments (HPA tuning, resource limits) and streamlining model-serving pipelines.
- Improved observability across microservices, reducing RCA time and enhancing reliability.
- Key Achievement:* Bridged AI research and production by engineering scalable, high-impact applications that drove measurable business outcomes.

Societe Generale, Bangalore

Mar 2020 - Mar 2024

Specialist SE - Full stack

- Delivered and maintained 8 enterprise BCM applications with high availability and performance guarantees.
- Designed and implemented CI/CD pipelines using Docker and Kubernetes, enabling zero-downtime deployments and faster release cycles.
- Key Achievement:* Built a reusable middleware framework that reduced engineering effort by 80%, driving significant cost and time savings. Recognized with multiple spot awards for outstanding contributions.

Nous Infosystems, Bangalore

Jul 2018 - Feb 2020

Software Engineer

- Led a 3-member development team, ensuring ownership and successful delivery of key client projects.
- Successfully delivered a key project HME Janus, resulting in a remarkable 38% increase in product revenue within a 5-month period.
- Key Achievement:* Achieved a newbie award in recognition of significant contributions.

Capgemini, Bangalore

Jun 2015 - Jun 2018

Associate Consultant

- Owned and delivered multiple project modules, quickly mastering Angular and React to accelerate development timelines.
- Contributed to eSD (Electronic Supplier Diagnostic), a supplier diagnostics platform for Jaguar Land Rover (JLR), building scalable UI components and integrating clean, modular code.
- Key Achievement:* Received a Special Mention Award from client Cisco Systems, Inc. for outstanding technical delivery and commitment.

EDUCATION

KL University, Vijayawada

Aug 2011 - Jun 2015

B.Tech. in Computer Science and Engineering

CGPA: 7.8/10

Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks
